## Reading Worksheet

## Units: 4/5/6

### Read the following passage carefully, then answer the questions that follow:

Mountain climbing is a very dangerous sport with special requirements and strict climbing rules. The first requirement is to take a course in a well-known climbing school to learn about mountain conditions and safe climbing. Another requirement is to wear special clothing; a helmet and climbing boots. You must also carry special equipment like iron spikes.

You can climb alone but it is safer to climb in teams of two or more. When you climb in a team, each climber is tied around the waist to the same rope. This is to protect a climber who slips or slides from falling. You climb one foothold and handhold at a time. You must give exact commands and responses to your climbing partners. At all times, they must be aware of falling rocks. When climbers are tired, they need to find safe places to rest in.

Most climbers agree that mountain climbing is amazing. The higher you climb, the more beautiful the view is. You can see treetops, rivers, lakes, and distant mountains. Above you, the sky and moving clouds are a spectacular and amazing sight.
