Reading Worksheets: Units 1/2/3/4/5/6

□ Read the following passage carefully, then answer the questions below:

People have been inventing things for years. Paper was invented about 2,000 years ago. The wheel was invented more than 5,000 years ago. What would life be like without paper to write on or bikes to ride? Those inventions have made life easier.

The Wright brothers invented the first airplane in December 1903. Before the airplane was invented, most people travelled by cars, boats, and trains. Today, airplanes help people travel faster. People move around the world easier.

Alexander Graham Bell invented the telephone in 1876. Before the telephone was invented, people kept in touch by writing letters or talking in person. Today, the telephone makes it easier for people to talk to one another. The first car was invented by Karl Benz in 1891. Before people had cars, they could not travel easily. They walked or rode horses for short trips. They took trains or boats for long trips. In 1946, the first digital computer was built. Presper Eckert built it to solve problems. Today, people use computers to write, get information, and even shop all over the world.

□ **Read the following passage carefully, then answer the questions that follow:**

Mountain climbing is a very dangerous sport with special requirements and strict climbing rules. The first requirement is to take a course in a well-known climbing school to learn about mountain conditions and safe climbing. Another requirement is to wear special clothing; a helmet and climbing boots. You must also carry special equipment like iron spikes.

You can climb alone but it is safer to climb in teams of two or more. When you climb in a team, each climber is tied around the waist to the same rope. This is to protect a climber who slips or slides from falling. You climb one foothold and handhold at a time. You must give exact commands and responses to your climbing partners. At all times, **they** must be aware of falling rocks. When climbers are tired, they need to find safe places to rest in.

Most climbers agree that mountain climbing is amazing. The higher you climb, the more beautiful the view is. You can see treetops, rivers, lakes, and distant mountains. Above you, the sky and moving clouds are a spectacular and amazing sight.

A) Choose the correct answer from a, b, c and d:

1. The best title of the passage is:

a- Schools and Lakes.

b- Special Equipment.

c- Climbing Mountains

d- Boots and Ropes

2. The underlined word **they** in paragraph (2) refers to:

Read the following passage, then answer the questions below:

Galileo Galilei was born in the year 1564. He was born in the town of Pisa, in Italy. His father wanted him to be a doctor. Galileo was bored with school. The only subject he really liked was Math. Because he was doing well in math, Galileo said he could become a mathematician.

Galileo began experimenting with different things because he needed to earn money. He tried to come up with an invention he could sell for money. He invented something like a compass that could be used to measure land.

Galileo heard that a German scientist had invented something called a spyglass. The inventor was trying to keep it a secret. Galileo decided to work on one of his own. Within 24 hours, he had invented a telescope. It could **magnify** things to make them appear ten times larger than real life. One night, he pointed his telescope towards the sky. He made his first of many space observations. Everyone thought the moon was smooth. Galileo saw that **it** wasn't. The moon was covered in hills and holes.

As technology has improved, today, the telescope is a wonderful invention that enables us to see objects far, far away.
